

SRI INDU COLLEGE OF ENGINEERING & TECHNOLOGY

(an Autonomous Institution under UGC, New Delhi)

Recognized under 2(f) & 12(B) of UGC Act 1956

Permanently Affiliated to JNTUH, Accredited by NAAC & NBA

Sheriguda(V), Ibrahimpatnam(M), Ranga Reddy Dist. – 501 510

7.1.5 GREEN CAMPUS INITIATIVES INCLUDE

7.1.5.1. The institutional initiatives for greening the campus are as follows:

Restricted entry of automobiles

Use of bicycles/ Battery-powered vehicles

Pedestrian Friendly pathways

Ban on use of Plastic

Landscaping with trees and plants

RESPONSE:

Sri Indu College of Engineering & Technology, one of the best engineering colleges in Telangana, has always taken a green agenda. Despite being primarily a technological institution, it has shown remarkable awareness in maintaining an eco-friendly campus. On visiting the Campus, one can experience the aesthetic and elegant buildings, splendid lawns, spacious sports grounds and lush green environment conducive for teaching-learning process.

INSTITUTIONAL INITIATIVES:

RESTRICTED ENTRY OF AUTOMOBILES

The college operates a fleet of 22 buses covering each corner of Hyderabad to facilitate the students and staff. The institute encourages the staff and students to use the college transport instead of their own vehicles for safety, security, fuel conservation and to reduce environmental pollution. The college buses are checked for pollution by the authorized agency. The vehicles owned by faculty or students with pollution check stickers are permitted into the campus. Random checks are made to check the validation and periodicity of this certificate. For two wheelers or four wheelers, security measures are mandatory. Our Institution has implemented green-friendly practices, the automobiles entry into the campus is restricted and the sign boards are placed at the prominent places. All vehicles must be parked at parking area only provided at

the entrance. Many of our students availing public transport provided by the government based on their convenience. The common bus stand has been contributed by our institutions and it is located beside our college campus.

USE OF BICYCLES/ BATTERY-POWERED VEHICLES

The students staying in hostel are using bicycle to go from hostel to college and vice versa. Students and staff coming from nearby villages also prefer bicycle/ Battery-Powered Vehicles as a mode of transport for attending the college. It is environment friendly and prevents pollution.

PEDESTRIAN FRIENDLY PATHWAYS

Vehicle parking space is provided at the main entrance of the college campus. As the campus is vehicle free with some exceptions, students and staff experience comfort walking through the pedestrian friendly pathways. The internal roads are lined with trees and solar lights and they are properly maintained by the campus maintenance committee.

BAN ON USE OF PLASTIC

Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation and display boards in the premises. To restrict the use of plastic, measures have been taken to replace plastic tea cups and glasses with steel glasses in the canteen. The staff and students are informed to use steel or copper water bottles instead of plastic bottles. If found any then our NSS team along with the help of sweepers they will clean & maintain a hygienic campus. As due to pandemic all the volunteers are doing this job very effectively and efficiently.

LANDSCAPING WITH TREES AND PLANTS

Landscaping of the college is worth seeing and reflects aesthetic sense. The institute has a canopy of trees and plants to make the environment pollution free to safeguard the health of all the inmates. The lawns and the trees provide shade and beautiful ambience. Utmost care is taken to develop and maintain green landscaping by trained gardeners and supervisor. The construction, maintenance and beautification committee constituted in the college looks after the development and maintenance of the greenery in the campus.

The institute authorities are taking initiatives to make the campus paperless. Internal communication in the campus, through e-mail or e-messages, is driving towards paperless office. Electronic notice boards are installed in the campus to display circulars and information for the students. Electronic gadgets are preferred to transfer and store the official data and information. Library and examination sections are equipped with efficient software. MOODLE, the Learning Management System are used for academic activity in the campus.
